Senior Full Stack Developer

Description

At ANCORE, we foster a culture where our people come first. We refer to our employees as 'members' to emphasize that everyone who joins us becomes a co-owner in our journey—sharing both the rewards and challenges of building a world-class business. As one of the world's largest independent firms in information technology and business process services, our continued success hinges on attracting and retaining top-tier professionals like you.

Position Overview

Seeking a Full Stack Senior Developer who is proficient in Java/JavaScript and other modern web technologies to assist us with the development of financial applications and services based on Microservices architecture and modern JS frameworks. The developer will be involved in assisting the team with new features, defect fixes, technical debts, improvements and migration efforts for both our customer facing and internal applications/services by applying the specialized knowledge in each stage of software development – including server operations, front-end and back-end development, testing, verification and maintenance.

Responsibilities

- Design, develop, test and support the applications and services within financial modelling and research division.
- Involve in fixing the defects and addressing the technical debts to ensure best software development practices are met.
- Write clean, robust, high-quality code following best practices and backed by automated unit and integration tests with full coverage.
- Coordinate with the rest of the team working on different layers of the infrastructure.
- Assist with the infrastructure upgrades and adoption of new technologies.
- A commitment to collaborative problem-solving, sophisticated design, and quality product is important.

Qualifications

- At least 7 years of hands-on software development and programming experience with knowledge of application, data and architecture design patterns and principles.
- Must have a strong background in developing scalable applications and services based on Java frameworks such as Spring/Spring Boot/Spring Cloud, Hibernate, Kafka and Netflix stack for microservices.
- Must possess experience developing rich, classy and sophisticated web UI based on Angular framework, jQuery and Material design.
- Familiarity with REST API design, development and documentation.
- Experience with build and integration tools, including knowledge of Gradle, Jenkins, Git and Docker.
- Strong acumen to learn the business functions and features that need to be delivered.

Preferred Skills

Hiring organization

Ancore Inc

Contractor

Duration of employment

1 Year

Job Location

McLean, Virginia, US

Working Hours

9AM to 5PM

Date posted

July 23, 2025

Valid through

29.08.2025

- Bachelor's degree in computer science or equivalent experience.
- Proficiency with fundamental web front-end languages and frameworks.
- Familiarity with database technologies such as SQL Server, Sybase, Redis, MongoDB and so on.
- Experience writing automated unit, integration, regression, performance, and acceptance tests.

Job Benefits

We offer more than just a job—we offer a community:

At Ancore, we provide exceptional benefits, including competitive Paid Time Off, comprehensive Medical, Dental, and Vision Insurance, and a robust 401(k) plan. But we don't stop there.

We invest in your potential:

Every member receives a dedicated stipend to pursue professional development—be it certifications, a master's degree, or even a doctorate. We encourage growth through flexible learning options, whether you're taking a course, earning a certification, or attending a conference. Curiosity is celebrated here, and continuous learning is a cornerstone of our culture.

We work hard—and make time for joy:

Ancore, fun isn't an afterthought. From virtual and in-person events like happy hours, holiday parties, and wellness challenges to annual celebrations and charity galas, we believe in fostering connection, creativity, and community spirit.

Diversity is our strength:

As an Affirmative Action/Equal Opportunity employer, Ancore makes all employment decisions based on merit, qualifications, and business needs—never on personal attributes or backgrounds. Everyone deserves a workplace where they feel valued and respected.

Access for all:

We are committed to inclusion and provide reasonable accommodations to ensure all qualified individuals with disabilities can thrive in their roles.
