Application Developer II

Description

The Application Developer II will work within the Analytics Center of Excellence (COE) and collaborate with data scientists, clients, and internal teams to develop and support web/UI applications. The role involves understanding business requirements and translating them into technical solutions. The developer will participate in the full software development lifecycle, including analysis, design, development, testing, and integration, ensuring applications are delivered on time and meet business needs.

Responsibilities

- Collaborate with data science teams, clients, and stakeholders to understand business requirements.
- Analyse, design, and develop web/UI applications.
- Support the full software development lifecycle including development, testing, and deployment.
- Ensure application software is delivered on time and meets quality standards.
- Perform systems design and application development.
- Work on database development and application integration.
- Troubleshoot and resolve technical issues.
- Collaborate with team members on small to large, complex projects.

Qualifications

- Minimum 4 years of experience with front-end technologies such as: Angular, HTML and CSS.
- Minimum 4 years of experience with Python-based web frameworks, especially Django.
- Intermediate SQL skills.
- Hands-on experience with containerization technologies.
- Strong analytical, organizational, and problem-solving skills.
- Ability to work both independently and in a team environment.
- Experience with systems design, development, testing, and integration methodologies.
- Minimum 3 years of advanced programming and application design experience.

Education

Bachelor's degree in a related field (Computer Science, Information Technology, Software Engineering, or similar) – Preferred.

Job Benefits

We offer more than just a job—we offer a community:

At Ancore, we provide exceptional benefits, including competitive Paid Time Off, comprehensive Medical, Dental, and Vision Insurance, and a robust 401(k) plan. But we don't stop there.

We invest in your potential:

Every member receives a dedicated stipend to pursue professional development—be it certifications, a master’s degree, or even a doctorate. We encourage growth through flexible learning options, whether you’re taking a course, earning a certification, or attending a conference. Curiosity is celebrated here, and continuous learning is a cornerstone of our culture.

We work hard—and make time for joy:

Ancore, fun isn’t an afterthought. From virtual and in-person events like happy hours, holiday parties, and wellness challenges to annual celebrations and charity galas, we believe in fostering connection, creativity, and community spirit.

Diversity is our strength:

As an Affirmative Action/Equal Opportunity employer, Ancore makes all employment decisions based on merit, qualifications, and business needs—never on personal attributes or backgrounds. Everyone deserves a workplace where they feel valued and respected.

Access for all:

We are committed to inclusion and providing reasonable accommodation to ensure all qualified individuals with disabilities can thrive in their roles. Bachelor’s degree in a related field (Computer Science, Information Technology, Software Engineering, or similar) – Preferred.
