Description

At Ancore, we strive to create an environment where our people come first. We call our employees members to reinforce that all who join our team are considered company owners and are empowered to share in the rewards and challenges that come from building a world-class business. As one of the largest independent information technology and business process services firms in the world, we realize our continued success depends on our ability to attract and retain top-quality professionals like you.

Responsibilities

- Design, architect, build and maintain high quality web applications using AWS services like EC2, EKS, S3, Lambda, DynamoDB, RDS etc.
- Employ proven patterns and best practices for security, scalability, and reliability in the AWS cloud
- Write clean, efficient, maintainable code for both front-end and back-end following established style guides.
- Integrate with third-party APIs and services.
- Lead code reviews, troubleshoot bugs, optimize performance.
- Collaborate with team to improve application architecture and flows.
- Identify and advocate for improvements to team practices, tools, and processes.
- Proficiency integrating Kubernetes with AWS services like ELB, ECS, EC2, RDS, etc.
- Familiarity with writing Kubernetes manifests and configuring pods, services, etc.
- Knowledge of Amazon EKS for deploying, managing, and scaling containerized applications
- Experience developing RESTful APIs and integrations.
- Implementing authentication and authorization with OAuth, JWT
- Caching with Redis or Memcached
- Following coding standards and code reviews
- Working with Git for version control
- Security best practices including HTTPS, input validation, SQL injection prevention.
- Microservices architecture and communication
- API gateway and middleware technologies
- Building reactive single page applications using React/Redux
- Experience with serverless application development on AWS
- Knowledge of AWS developer tools like CodeBuild, CodeDeploy, CloudFormation
- Experience mentoring and coaching other engineers.
- Knowledge of Kubernetes security best practices

Qualifications

- 5+ years of professional experience developing web applications.
- Expert-level knowledge of JavaScript, HTML, CSS

Job Benefits

We offer great benefits – Competitive Paid Time Off, Medical, Dental and Vision Insurance, 401(k).

We invest in our employees – Every employee is provided with a stipend to invest in certifications, a master's degree, or even a doctorate. We want you to grow as an expert and a leader and offer flexibility for you to take a course, a certification, or attend a conference. We are committed to supporting your curiosity and sustaining a culture that prioritizes commitment to continuous professional development.

We work hard, we play hard. Ancore is committed to injecting fun into every day. We dedicate funds for activities – virtual and in-person – e.g., we host happy hours, holiday events, fitness events, and annual celebrations. In alignment with our commitment to our communities, we host and attend charity galas/events. We believe in appreciating your commitment and building a positive workspace for you to be creative, innovative, and happy.

Ancore Inc is an Affirmative Action/Equal Opportunity employer. As such, any personnel decisions (hire, promotion, job status, etc.) on applicants and/or employees are based on merit, qualifications, competence and business needs, not on race, color, citizenship status, national origin, ancestry, gender, sexual orientation, gender identity, age, religion, creed, physical or mental disability, pregnancy, childbirth or related medical condition, genetic information of the employee or family member of the employee, marital status, veteran status, political affiliation, or any other factor protected by federal, state or local law.

To perform this job successfully, an individual must be able to perform each essential duty satisfactorily. Reasonable Accommodations may be made to enable qualified individuals with disabilities to perform the essential functions.
