## MuleSoft Developer

### Description

At Ancore, we strive to create an environment where our people come first. We call our employees members to reinforce that all who join our team are considered company owners and are empowered to share in the rewards and challenges that come from building a world-class business. As one of the largest independent information technology and business process services firms in the world, we realize our continued success depends on our ability to attract and retain top-quality professionals like you.

### Responsibilities

- Strong knowledge of MuleSoft Runtime environment and Anypoint Platform (on-premises and iPaaS).
- Experience in designing integration solutions using various approaches such as Microservices, messaging, queuing, API management and patterns, etc.
- Practical knowledge of DevOps practices and tools
- Knowledge of standards and best practices in scope of both: designing the architecture of EAI solutions and software development
- Strong experience in developing Mule flows using Anypoint Studio
- Experience using web services/APIs to access and integrate with external systems
- Experience defining and documenting best practices for API development in collaboration with other development teams, application owners, and data stewards
- Experience in integration of existing API Rest Services into MuleSoft Cloudhub.
- Help team assimilate fully using MuleSoft.
- Implement service virtualization with MuleSoft.
- Serve as POC with MQ connectors.
- Create/Manage Basic CI/CD Pipelines (Maven Plugin, Jenkins, Bamboo, etc.)
- Proficiency in designing Mule components (Mule ESB, Anypoint Studio, ETLs, flows, MEL, message modeling, Routing, Filtering, Database, Exception Handling, API Management).

### Qualifications

- Bachelor's degree in Computer Science, Information Systems, Engineering, Business, or related discipline.
- 5+ years of overall IT experience.
- At least one-year ETL/integration experience with MuleSoft and other tools (Boomi, Cast Iron, Informatica, Jitterbit).
- Experience and understanding business requirements, working with stakeholders, and implementing complex integrations.
- Hands on experience with implementing certificate-based security for Mule applications.
- Experience in Agile environments and methodologies,
- Excellent verbal and written communication skills.

We invest in our employees – Every employee is provided with a stipend to invest in certifications, a master's degree, or even a doctorate. We want you to grow as an expert and a leader and offer flexibility for you to take a course, a certification, or attend a conference. We are committed to supporting your curiosity and sustaining a culture that prioritizes commitment to continuous professional development.

We work hard, we play hard. Ancore is committed to injecting fun into every day. We dedicate funds for activities – virtual and in-person – e.g., we host happy hours, holiday events, fitness events, and annual celebrations. In alignment with our commitment to our communities, we host and attend charity galas/events. We believe in appreciating your commitment and building a positive workspace for you to be creative, innovative, and happy.

Ancore Inc is an Affirmative Action/Equal Opportunity employer. As such, any personnel decisions (hire, promotion, job status, etc.) on applicants and/or employees are based on merit, qualifications, competence and business needs, not on race, color, citizenship status, national origin, ancestry, gender, sexual orientation, gender identity, age, religion, creed, physical or mental disability, pregnancy, childbirth or related medical condition, genetic information of the employee or family member of the employee, marital status, veteran status, political affiliation, or any other factor protected by federal, state or local law.

To perform this job successfully, an individual must be able to perform each essential duty satisfactorily. Reasonable Accommodations may be made to enable qualified individuals with disabilities to perform the essential functions.
