- Must have managed at least 2-3 end to end WMS programs in the past
- Work with the client leadership team on managing project execution plan, requirements, manage 3rd party vendors and risks
- Will need to be hands on in budget management to ensure project is completed on time and budget
- Needs to run weekly status calls and publish status reports as required
- Have done other similar programs of size and scale and had end to end ownership
- Manage a 20-25 strong project team
- Responsible for coordinating / collaborating with other tracks for end to end solution.

### Qualifications

- 2–3 full lifecycle WMS implementations managed as the primary Program/Project Manager.
- Strong experience running large, multi-year programs in warehouse management or supply chain systems.
- Proven background managing complex budgets, forecasts, variances, and financial controls.
- Experience working closely with executive leadership on program strategy and execution.
- Strong skills in risk management, issue resolution, and program governance.
- Excellent communication skills, with experience running steering committees and weekly status calls.

### Education

- Bachelor's degree in engineering, Computer Science, Information Systems, Supply Chain Management, or a related field (required).
- Master's degree (MBA, MS, or equivalent) is preferred.
- Any certifications related to **Manhattan WMS (MAWM)** or Supply Chain /
