Senior Quality Assurance (QA) Specialist

Description

At ANCORE we strive to create an environment where our people come first. We call our employees members to reinforce that all who join our team are considered company owners and are empowered to share in the rewards and challenges that come from building a world-class business. As one of the largest independent information technology and business process services firms in the world, we realize our continued success depends on our ability to attract and retain top-quality professionals like you.

Responsibilities

- Document and monitor testing outcomes and establish steps to remedy problems.
- Analyze current technologies used within the company and develop steps and processes to improve testing procedures.
- Detailed understanding of how to properly document test cases and create effective and focused testing plans.
- Assist other department engineers in creating practical demonstrations of proposed solutions and demonstrating them to other members of the team.
- Work closely with departments within the company to ensure hardware is available for projects and working properly.
- Provide detailed specifications for proposed solutions including time and scope involved.
- Define clear goals for all aspects of a product test and develop steps for their proper execution.
- Project development and leadership skills are essential in planning and overseeing project tests.
- Current understanding of best practices regarding system security measures.
- Experience with software engineering, customer experience and design architecture.
- Ability to work with various departments to facilitate the orderly execution of a proposed project plan.
- Knowledge of testing methodologies and when certain strategies are recommended.
- Knowledge and experience working with various operating systems.
- Professional work experience in analyzing and testing computer hardware and software using Selenium, Junit, Git and working in the Cloud utilizing an Agile Framework.

Qualifications

- Minimum of a Bachelor's degree in a related field
- Minimum of 5 years of experience in quality control
- Strong computer skills
- Excellent verbal and written communication skills
- Strong interpersonal skills
- Excellent analytical skills

Benefits

We offer great benefits – Competitive Paid Time Off, Medical, Dental and Vision Insurance, 401(k).

We invest in our employees – Every employee is provided with a stipend to invest in certifications, a master's degree, or even a doctorate. We want you to grow as an expert and a leader and offer flexibility for you to take a course, a certification, or attend a conference. We are committed to supporting your curiosity and sustaining a culture that prioritizes commitment to continuous professional development.

We work hard, we play hard. Ancore is committed to injecting fun into every day. We dedicate funds for activities – virtual and in-person – e.g., we host happy hours, holiday events, fitness events, and annual celebrations. In alignment with our commitment to our communities, we host and attend charity galas/events. We believe in appreciating your commitment and building a positive workspace for you to be creative, innovative, and happy.

Ancore Inc is an Affirmative Action/Equal Opportunity employer. As such, any personnel decisions (hire, promotion, job status, etc.) on applicants and/or employees are based on merit, qualifications, competence and business needs, not on race, color, citizenship status, national origin, ancestry, gender, sexual orientation, gender identity, age, religion, creed, physical or mental disability, pregnancy, childbirth or related medical condition, genetic information of the employee or family member of the employee, marital status, veteran status, political affiliation, or any other factor protected by federal, state or local law.

To perform this job successfully, an individual must be able to perform each essential duty satisfactorily. Reasonable Accommodations may be made to enable qualified individuals with disabilities to perform the essential functions.
